Public Scholarship

I am the author of *Foreign Figures*, a weekly newsletter offering data-driven takes on foreign affairs.

I have contributed to *Democracy Paradox*.

I also have contributed to *Religion in Public*.

I also write about various statistical and R-related things on my personal blog hosted on my professional website.

SOFTWARE

Tools

Expert: R & RStudio
Proficient: GitHub & Latex
Basic: Stata & Python

R Packages Developed

`coolor` - Tools to make setting and applying custom color palettes with `ggplot` more streamlined.

`oesr` (with Ryan T. Moore) - For visualizing the results from randomized controlled trials using the Office of Evaluation Sciences' recommended style guide.

`seerrr` - Tools that simplify the process of doing Monte Carlo and computational power analyses.

`ggregtab` - Uses `ggplot()` under the hood to generate regression tables.
